EXPERIENCE

SAP Advance Business Application Programming (Internship - Accenture)

- Developed a Delivery Report Audit View Report from
source documents using ABAP List View

Academic Projects

Personal Portfolio

- Developed a responsive portfolio website using React, HTML, CSS, and JavaScript, highlighting software development projects, technical skills, internship experience, certifications, and professional contact information through an interactive user interface.

Weather Application

- Built a real-time weather app using React.js and OpenWeatherMap API that displays global weather conditions including temperature, wind speed, humidity, and pressure.

Calculator Application

- Developed a functional calculator using HTML, CSS, JavaScript, and React.js that performs basic arithmetic computations.

2D Mario-style Game (Unity, C#)

- Developed a side-scrolling game with scoring system and character movement

APtech: An Apartment Management System

- Developed a full-stack web-based Apartment Management System for Hilario Apartments using React, TypeScript, HTML, CSS, PHP, and MySQL, implementing tenant management, apartment management, authentication, image uploads, and CRUD functionality.
